Short Questionnaire Structure

10 Questions (Nairobi, 13-15 December, 2016)

Africa Road Safety Workshop

13-15 December 2016, Nairobi

Questionnaire on Basic Aspects of Road Safety

Country:
Person interviewed:

1. Has a Lead Agency been established to prepare policy orientations or directions for Road Safety (RS)?

Y	N
---	---
2. Does Parliament have a role in decision-making on RS orientations or directions?

Y	N
---	---
3. Has a national Strategy for improved RS performance in the long term officially been set?

Y	N
---	---
- 3a. If yes, please describe.
4. Have national medium-term (four to ten years) quantitative targets been set for improved safety performance?

Y	N
---	---
- 4a. Have the targets been defined:

	on a purely (national) political basis (top-down)
	on the basis of the UN Decade of Action RS target (-50% in 2020)
	using a rational process based on known key problems and potentially efficient measures (bottom-up)
- 4b. Are the targets based on:

Y/N	fatalities (please describe)
Y/N	serious injuries (please describe)
	other indicators:
- 4c. Have intermediate safety performance indicators (SPIs) been defined to check progress towards the target?

Y	N
---	---
5. Are sustainable systems (durable, funded, maintained) in place to collect and manage data on road crashes, fatalities and injuries?

Y	N
---	---
6. Is there a Central Organization in charge of data systems for RS?

Y	N
---	---
7. Are there crash databases that link police and hospital data?

Y	N
---	---
8. Has a reporting procedure been set up to monitor the RS interventions carried out in the country?

Y	N
---	---
9. Is "benchmarking" used to monitor progress in the RS situation relatively to other (European) countries?

Y	N
---	---
10. Do you use any international RS databases/information sources?

Y	N	N/A
---	---	-----
- 10a. If 'yes', please specify which international sources you have used

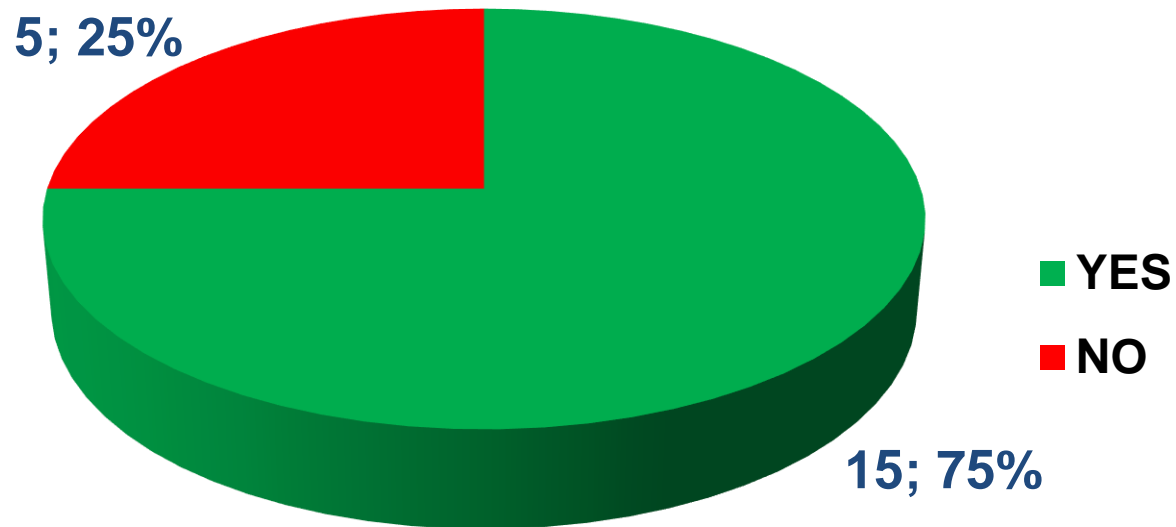

Participants

n_o	Countries		n_o	Countries
1	Botswana		11	Mozambique
2	Cameroon		12	Namibia
3	Ethiopia		13	Nigeria
4	Gambia		14	Sierra Leone
5	Ghana		15	South Africa
6	Kenya		16	South Sudan
7	Lesotho		17	Swaziland
8	Liberia		18	Tanzania
9	Malawi		19	Uganda
10	Mauritius		20	Zimbabwe

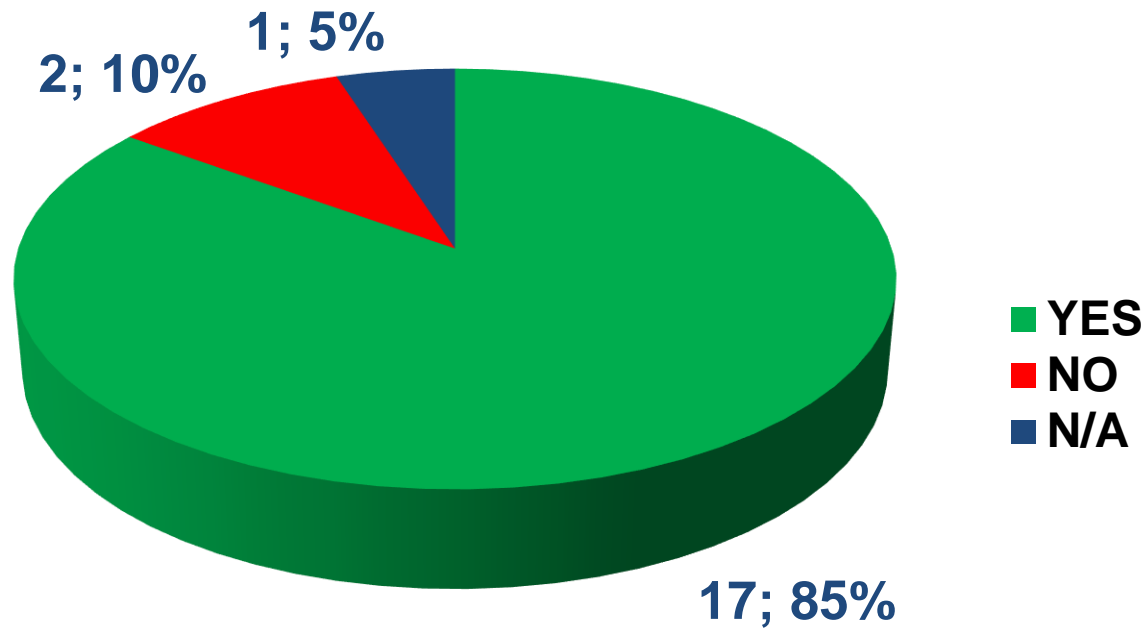

Question 1

Has a Lead Agency been established to prepare policy orientations or directions for Road Safety (RS)?

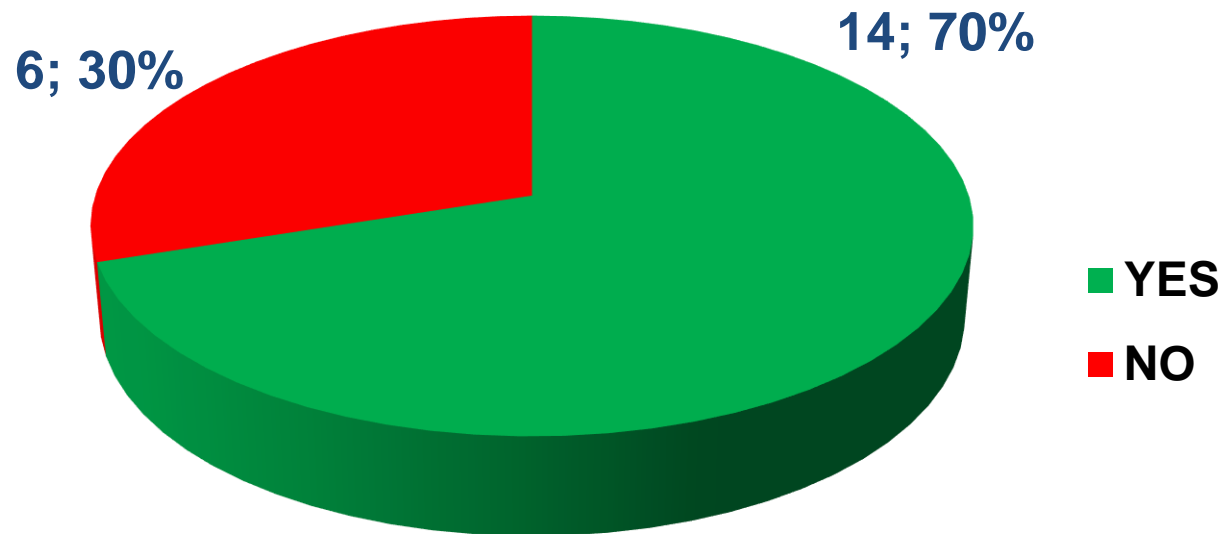

Question 2

Does Parliament have a role in decision-making on RS orientations or directions?

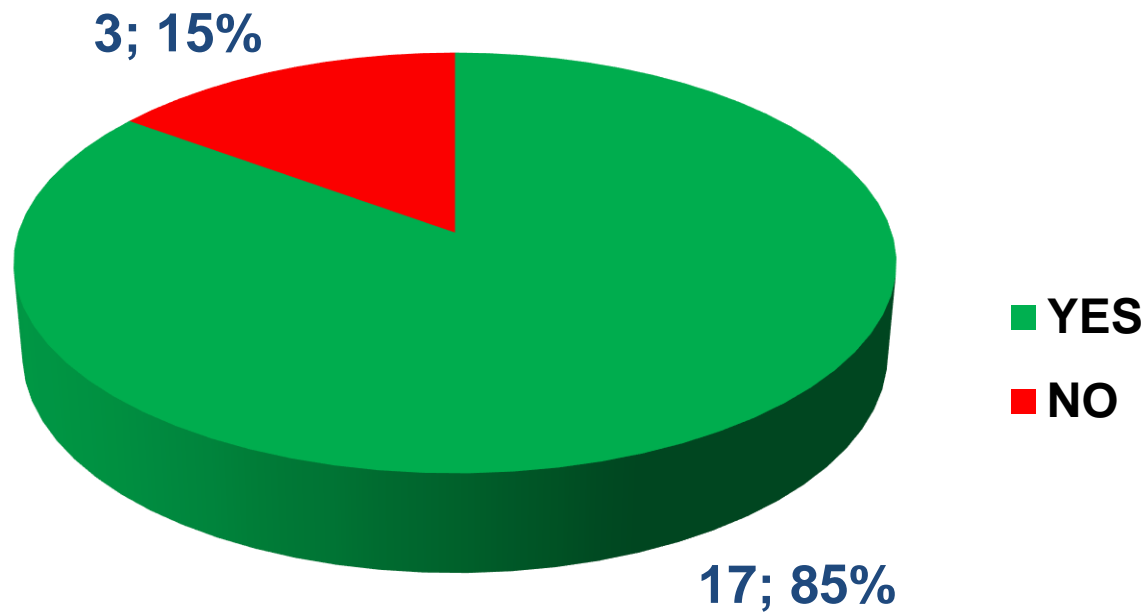

Question 3

Has a national Strategy for improved RS performance in the long term officially been set?

Question 4

Have national medium-term (4-10 years) quantitative targets been set for improved safety performance?

Question 4a

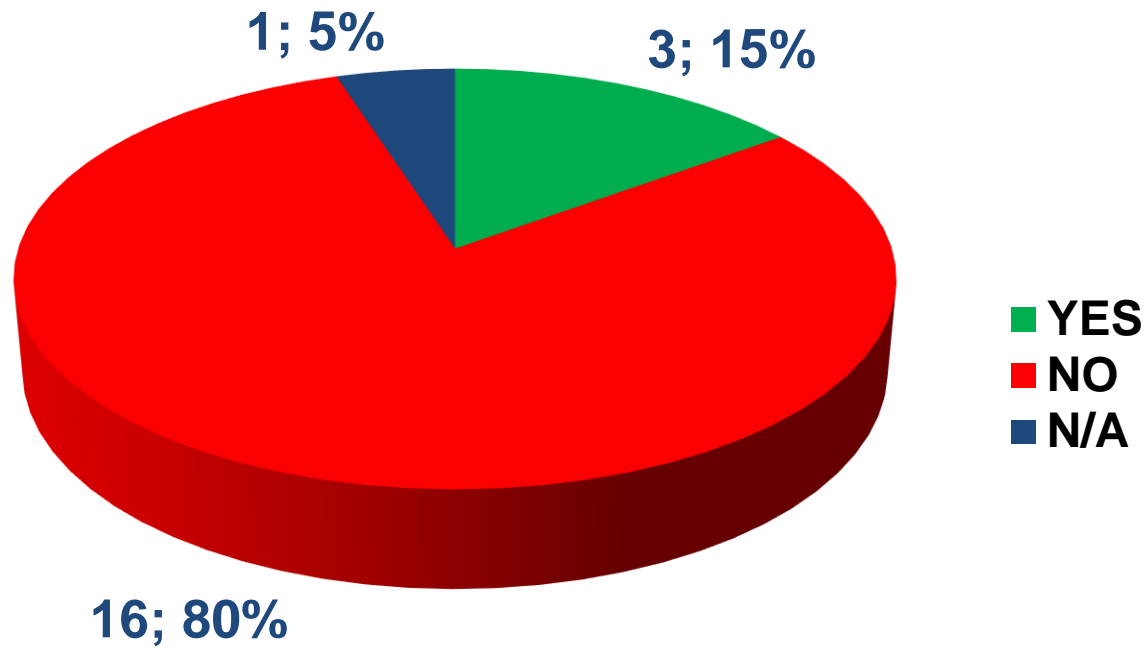

Have the targets been defined:

- on a purely (national) political basis (top-down)
- on the basis of the UN Decade of Action RS target (-50% in 2020)
- using a rational process based on known key problems and potentially efficient measures (bottom-up)

Question 4a₁

Have the targets been defined:

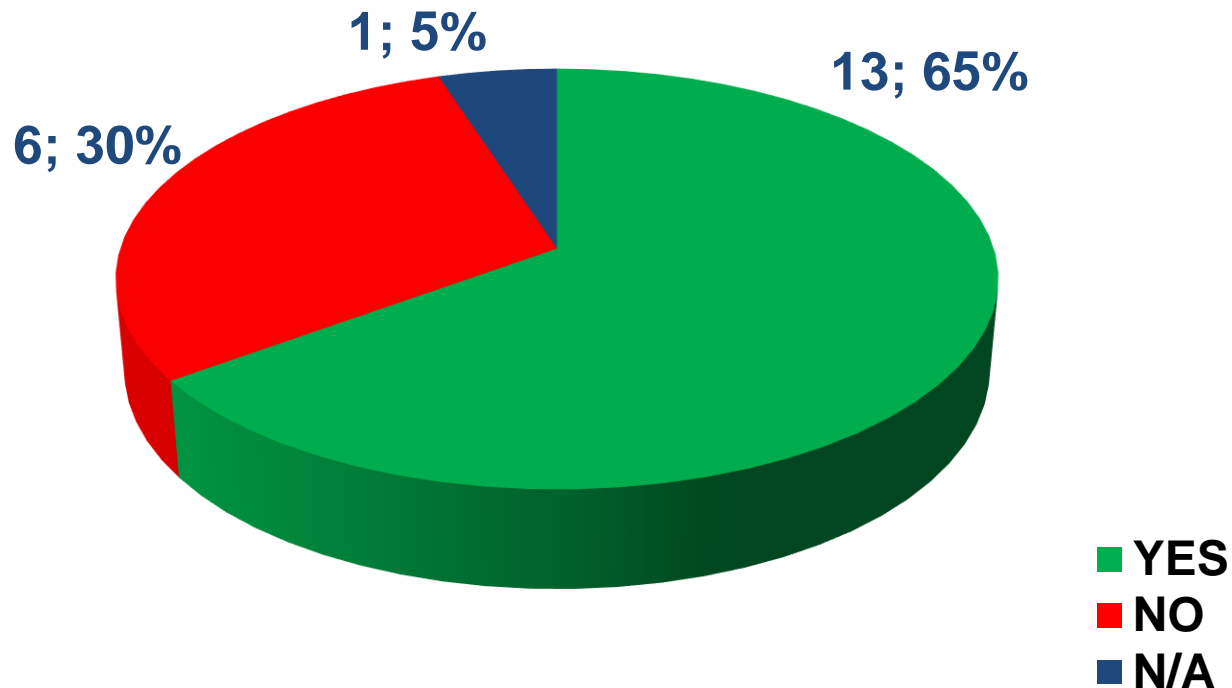

- on a purely (national) political basis (top-down)

Question 4a₂

Have the targets been defined:

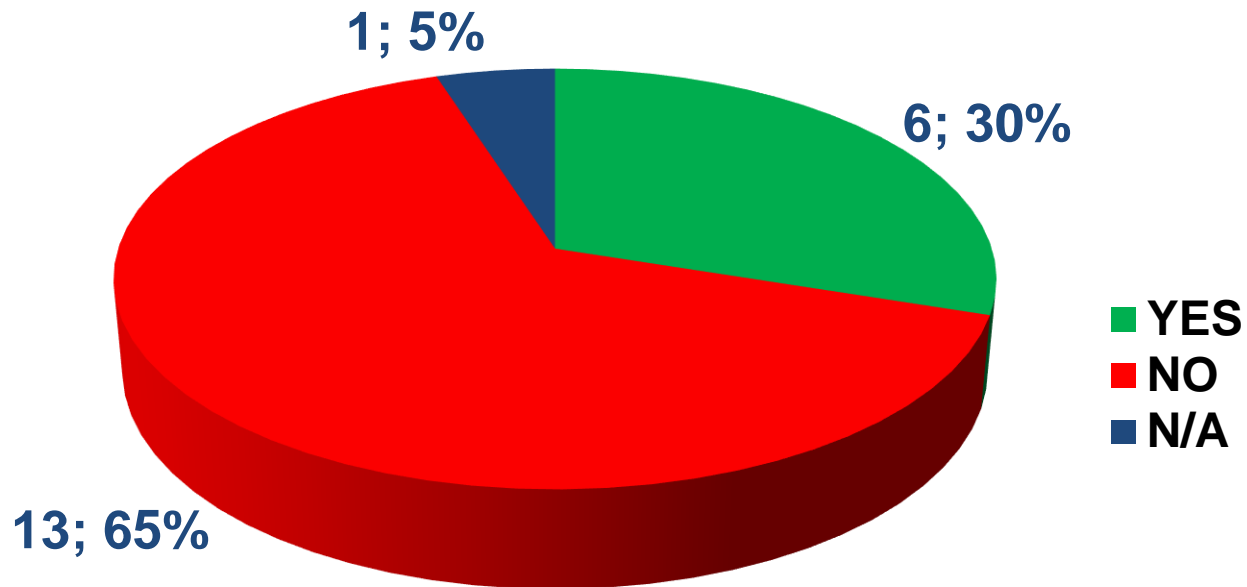

- on the basis of the UN Decade of Action RS target (-50% in 2020)

Question 4a₃

Have the targets been defined:

- using a rational process based on known key problems and potentially efficient measures (bottom-up)

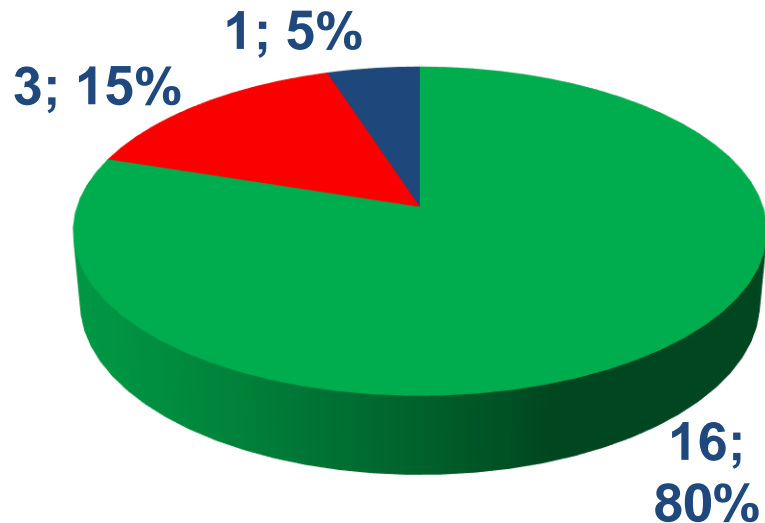

Question 4b_{1,2}

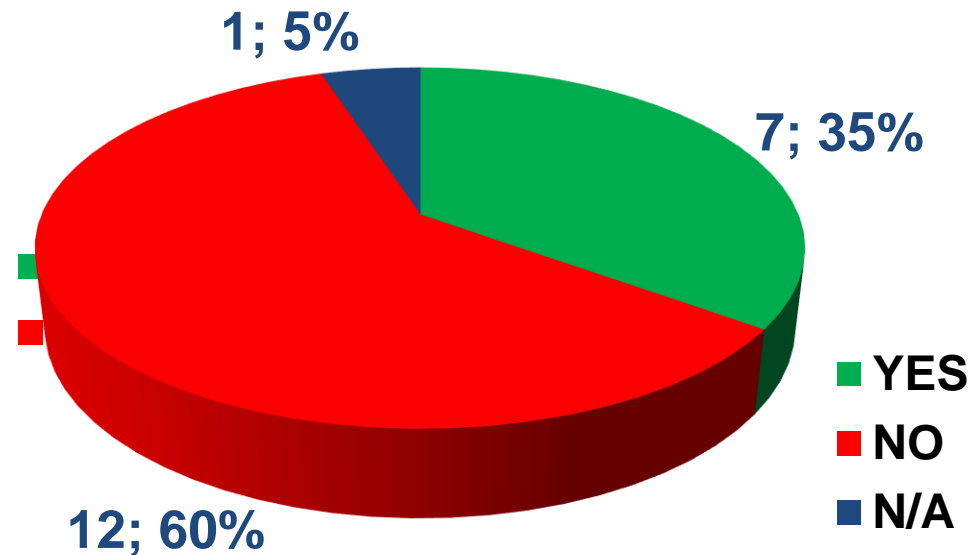

Are the targets based on:

- fatalities
- serious injuries

fatalities

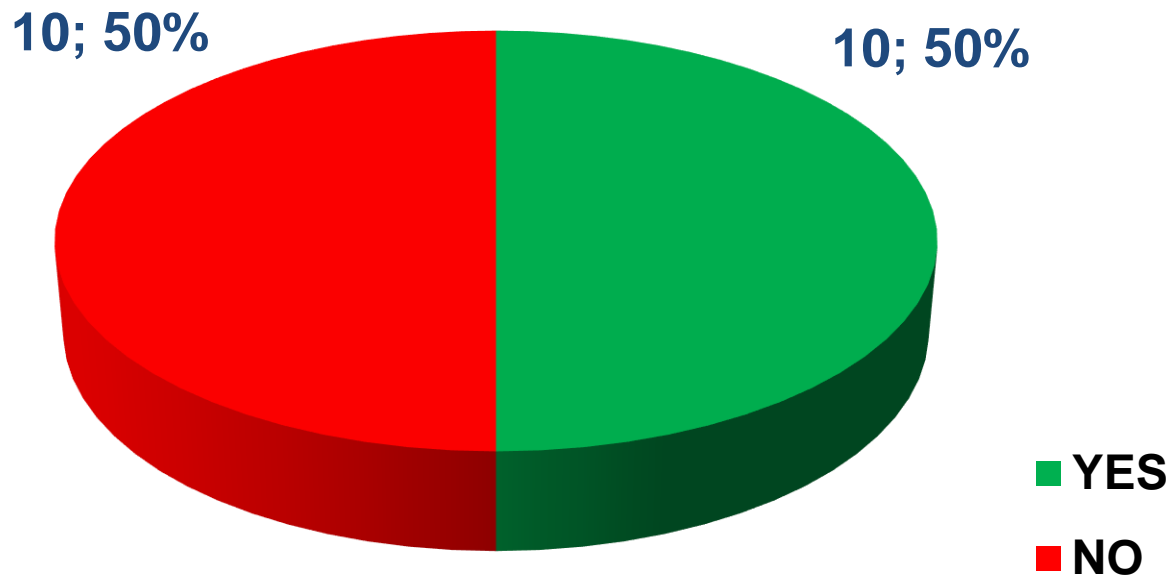

serious injuries

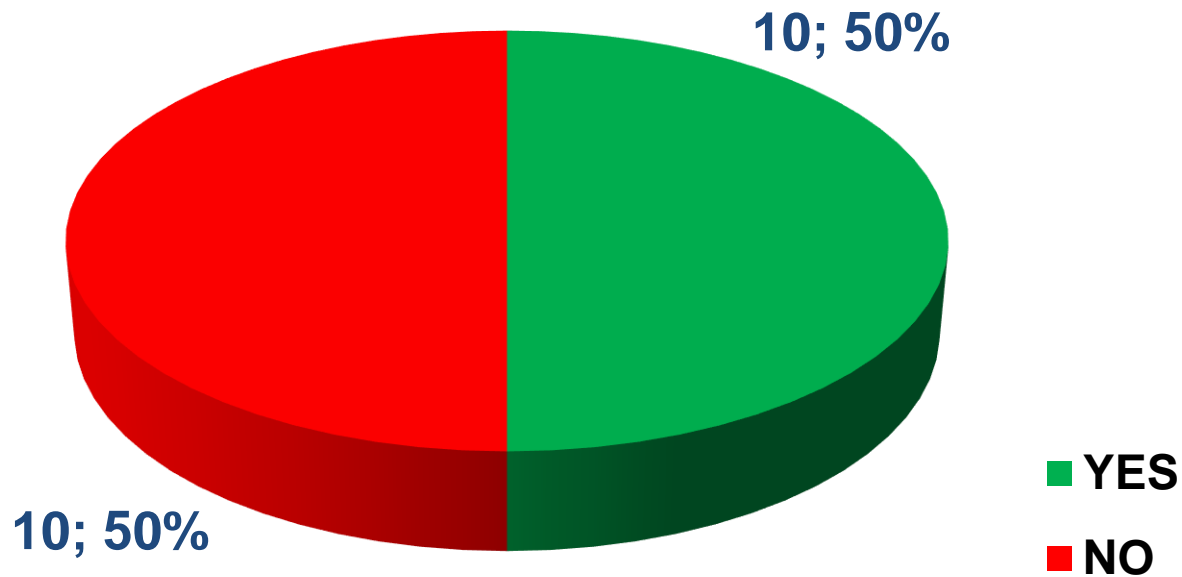

Question 4c

Have intermediate safety performance indicators (SPIs) been defined to check progress towards the target?

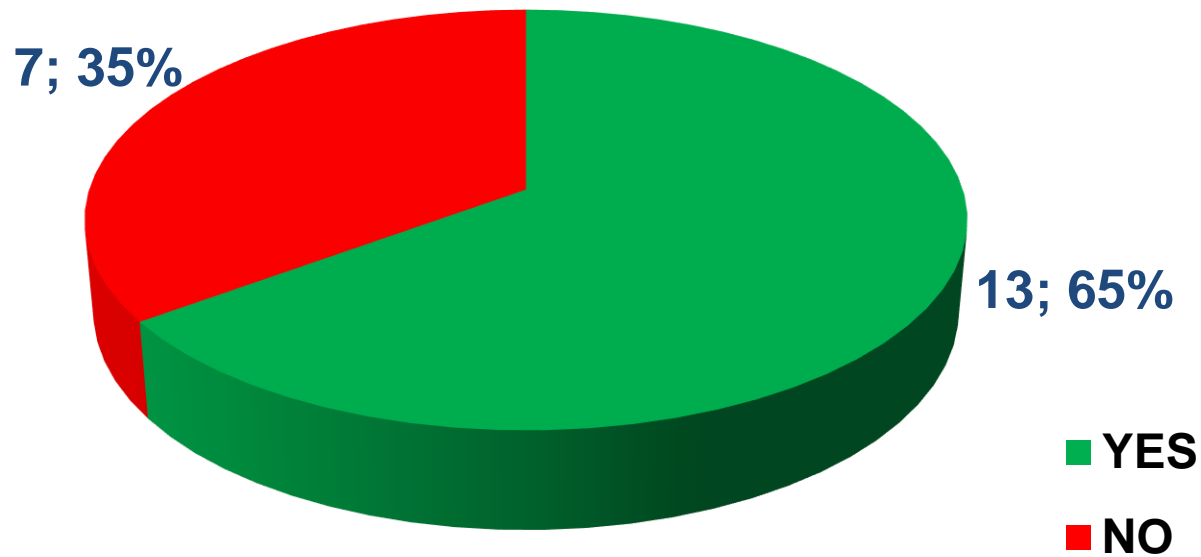

Question 5

Are sustainable systems (durable, funded, maintained) in place to collect and manage data on road crashes, fatalities and injuries?

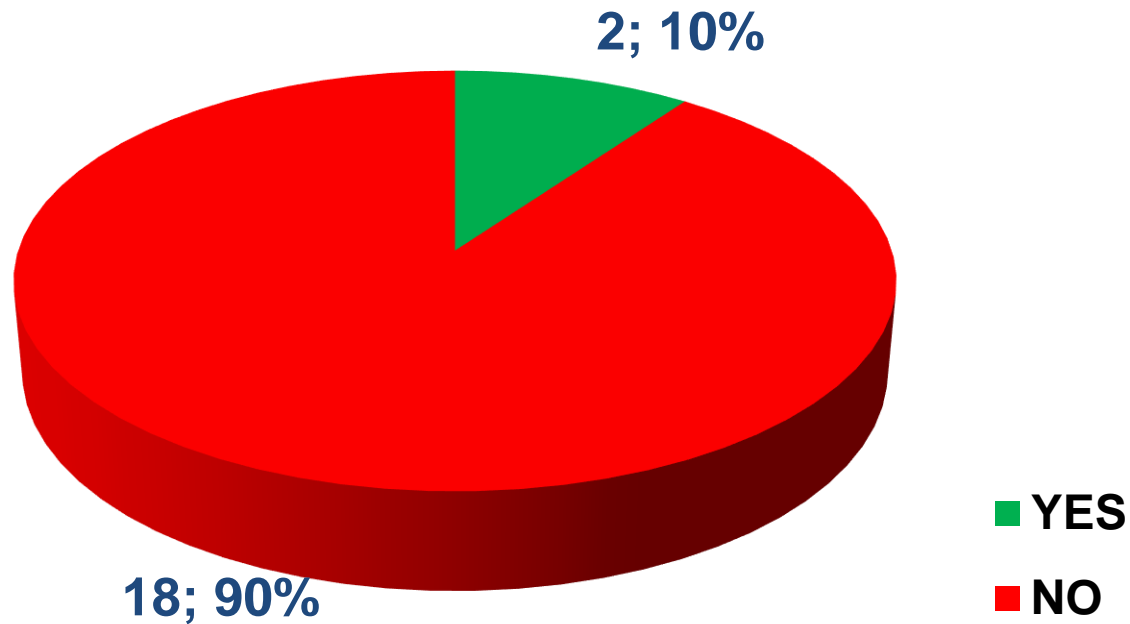

Question 6

Is there a Central Organization in charge of data systems for RS?

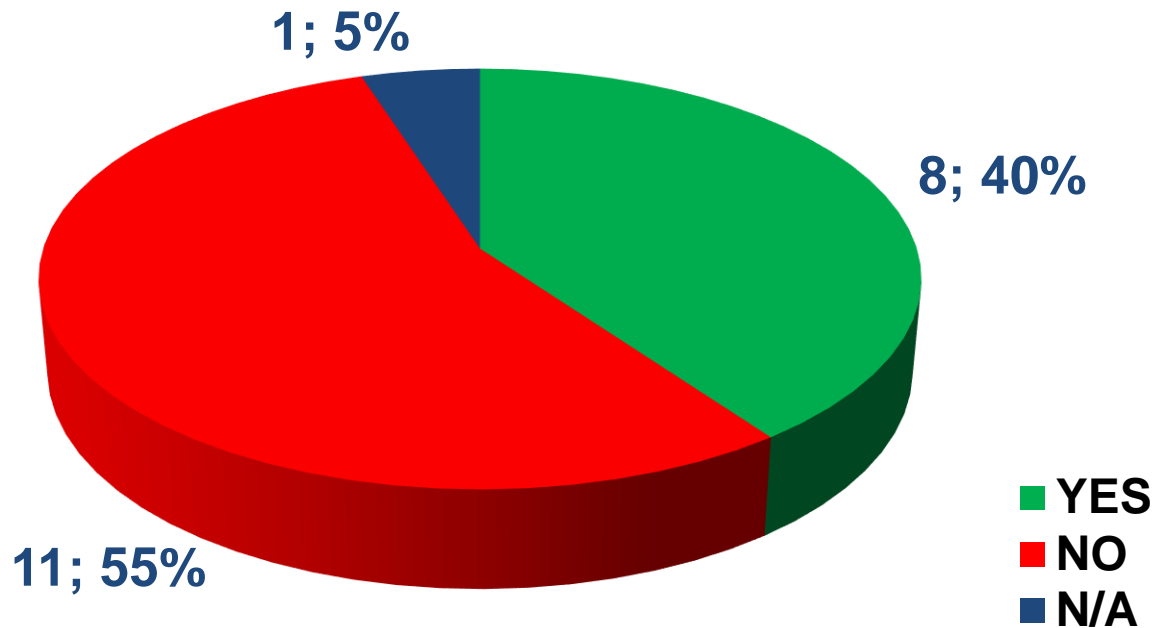

Question 7

Are there crash databases that link police and hospital data?

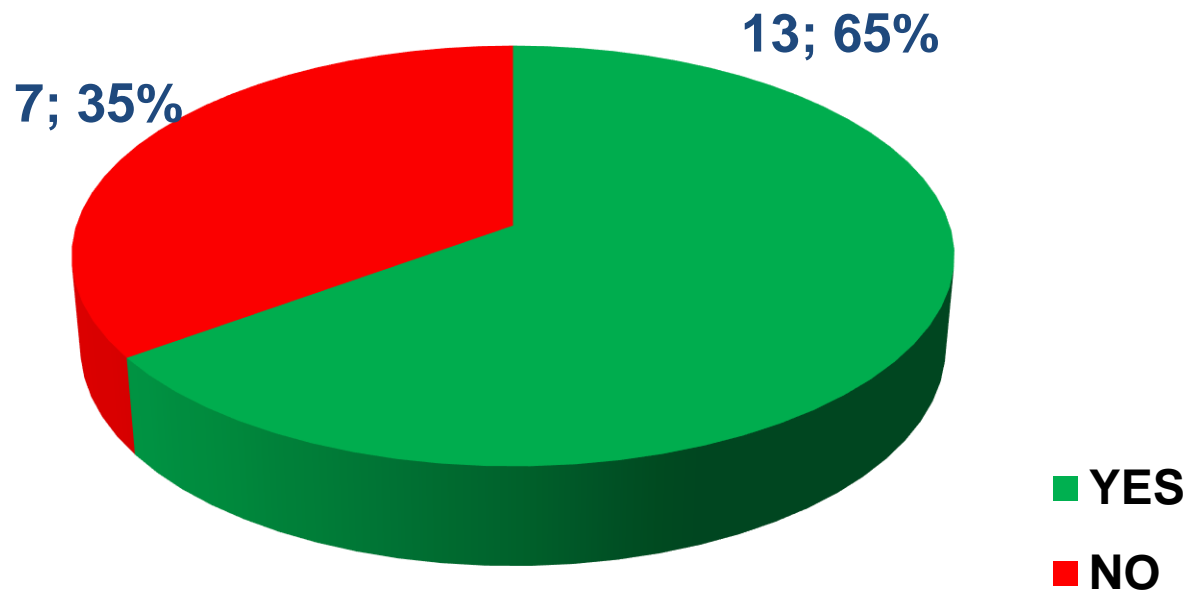

Question 8

Has a reporting procedure been set up to monitor the RS interventions carried out in the country?

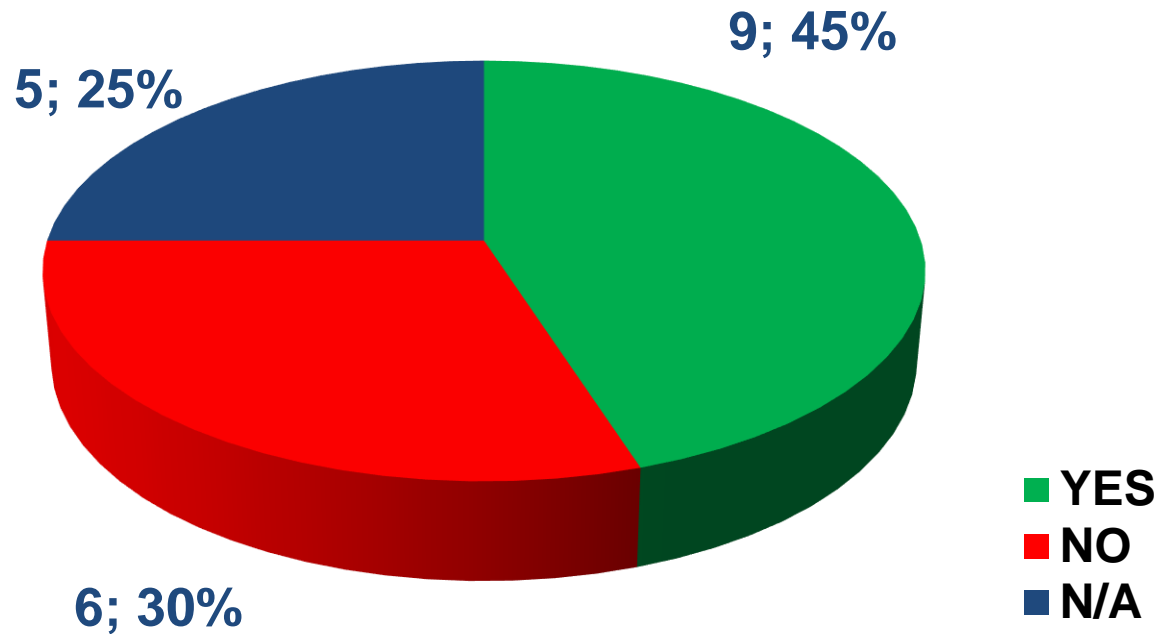

Question 9

Is "benchmarking" used to monitor progress in the RS situation relatively to other (European) countries?

Question 10

Do you use any international RS databases/information sources?
