Recommendations and Regional Action Plans

F. Orfanou, P. Papantoniou, E. Vlahogianni, G. Yannis
National Technical University of Athens

M. Miska, I. Theona
Region of Attica

HELLENIC REPUBLIC
REGION OF ATTICA

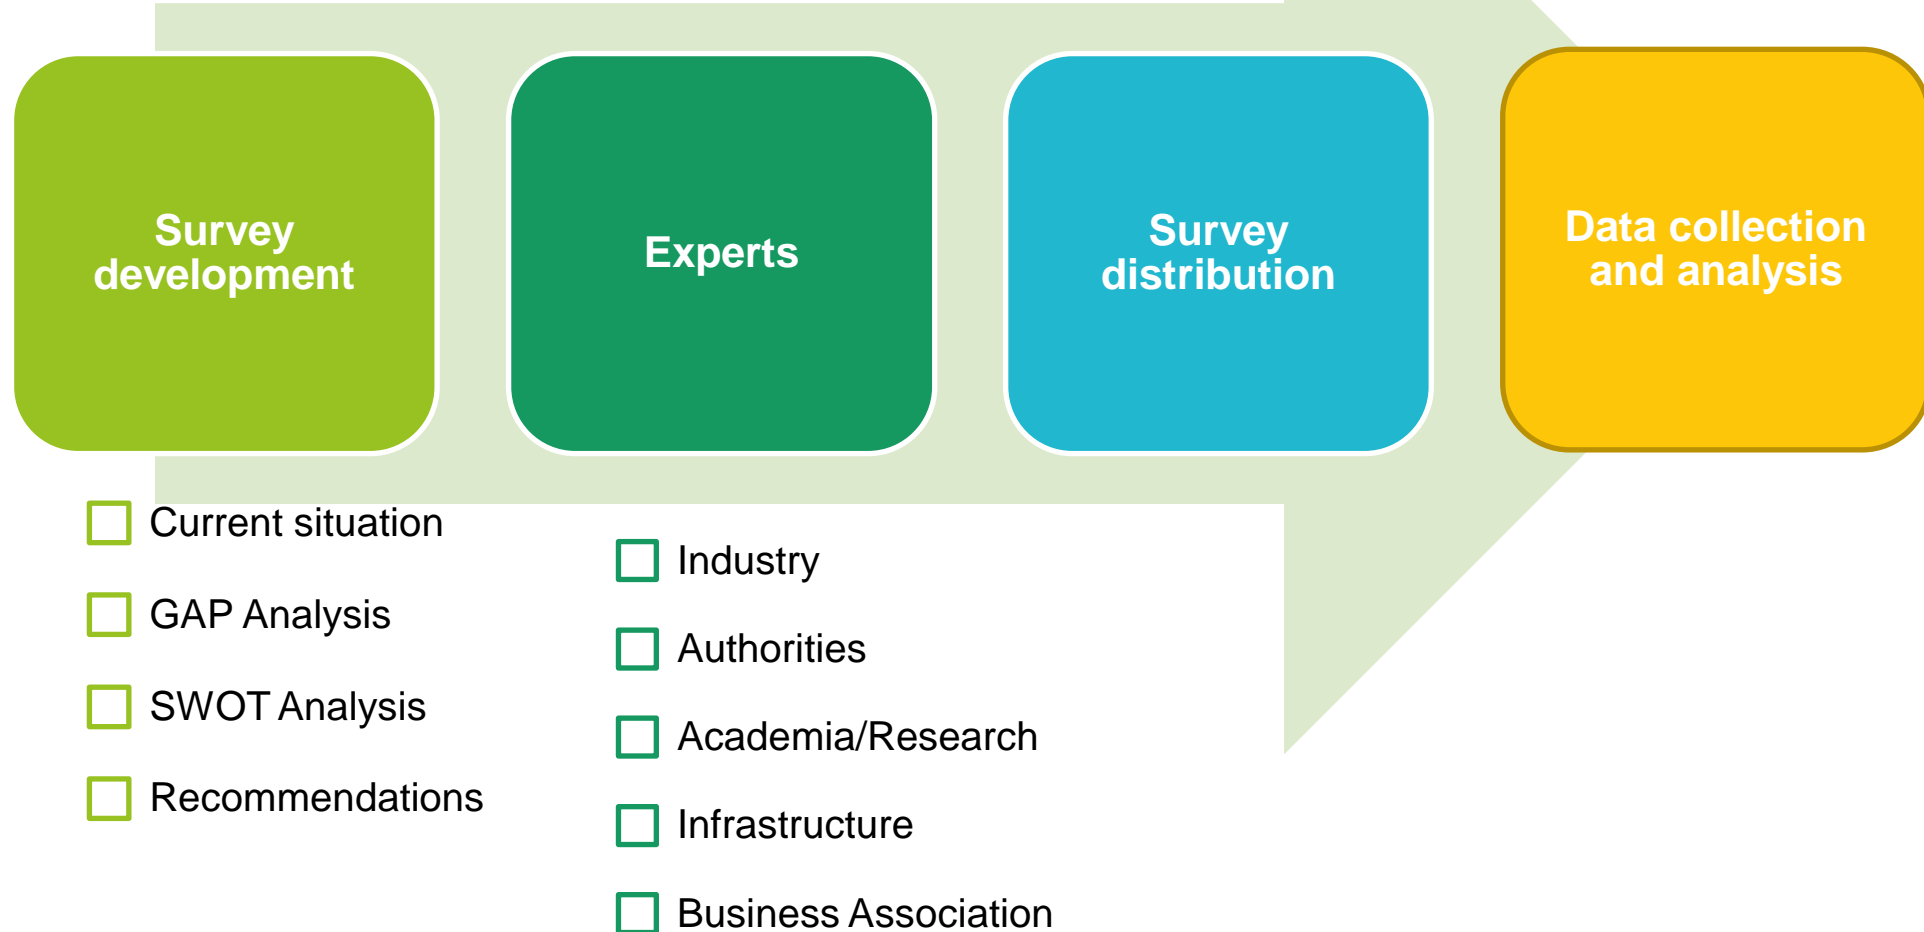

19th May, 2021 – e-MOPOLI Final Conference (phase 1)

Recommendations: Scope

- Definition of **effective guidelines**
- Design of **measures** for the shift from fossil to alternative fuels
- Deployment of **charging facilities**
- Solution of e-mobility powered with electricity from renewables exploiting **best practices** and **ready-to-go examples**
- Basis for the development of the Action Plan

Recommendations: Activities

Results & Lessons Learned

- **The analysis revealed for each region**
 - Gaps and deficiencies
 - Aspects that need to be further improved
 - Aspects where satisfactory progress has been achieved
 - Where the policy makers should focus
- **It is important to have a stakeholders group consisting of experts from different fields**
- **The cooperation between stakeholders:**
 - Resulted in more reliable results
 - Created a better and more thorough overview of the current situation concerning e - mobility and alternative fuels

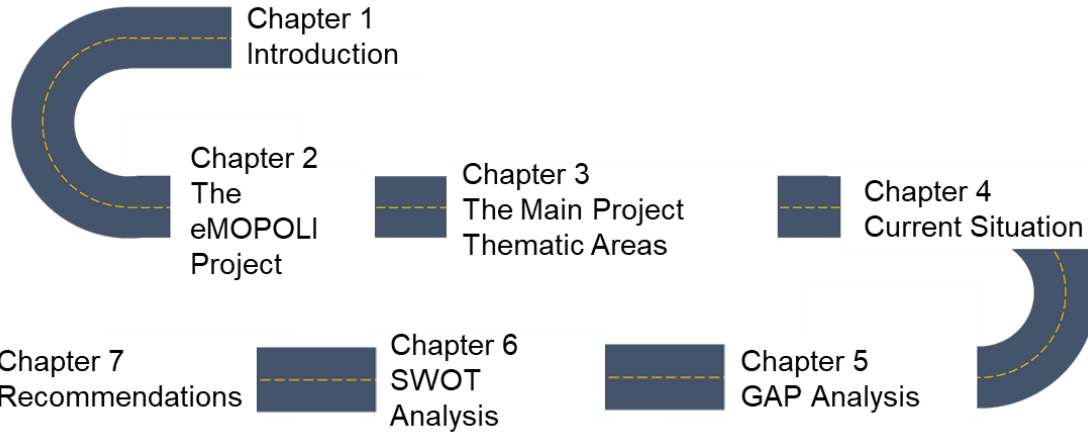

Things that we are proud of

- **Brought together stakeholders involved in the field of e - mobility**
- **Enabled the cooperation between the different parties**
- **The results of this process formulate the basis for an appropriate and successful Action Plan**

e-MOPOLI Action Plan (RAP2)
19/01/2021
Action Plans of the project partners
Type: [Project](#)

Regional Action Plan

- **Describes the policy instrument addressed**
- **Includes concrete, targeted, reasonable actions**
- **Specifies the defined actions**
 - Inspiration/Background
 - Objectives
 - Impacts
 - Timeframe
 - Stakeholders involved
 - Costs
 - Funding sources
- **Indicates how the actions contribute to policy instrument improvement**
- **Shows the monitoring process of the actions during the implementation phase**

Methodology

Results & Lessons Learned

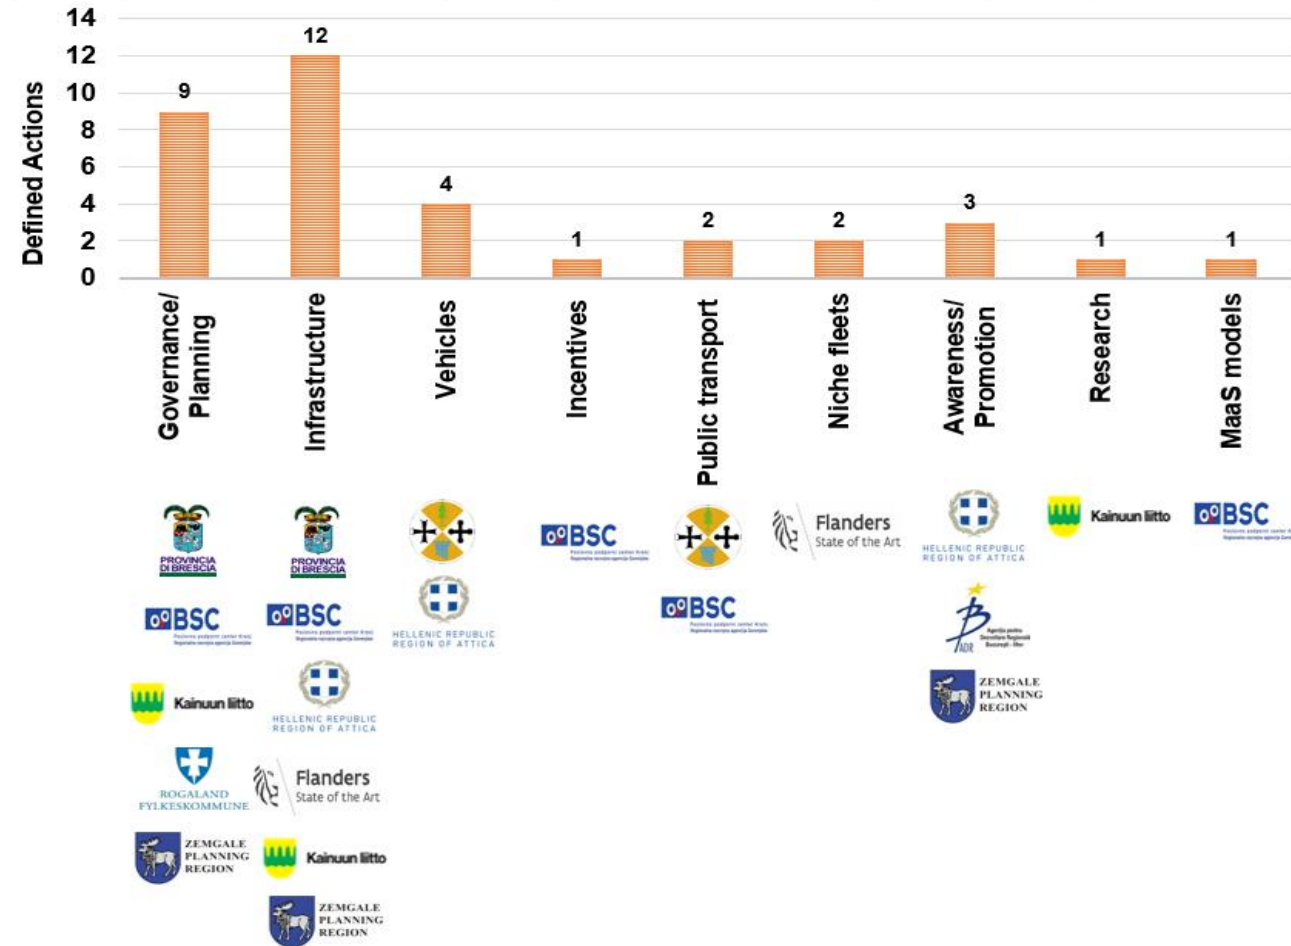

➤ 9 concrete Regional Action Plans

- 9 Priority Axes
- 35 actions

➤ Infrastructure and Governance the most “popular” priority axes

➤ Former analysis is necessary for:

- Targeted and reasonable actions
- Identified the areas where actions need to be taken
- A successful action plan

Things that we are proud of

➤ **Variety of actions and priority axes**

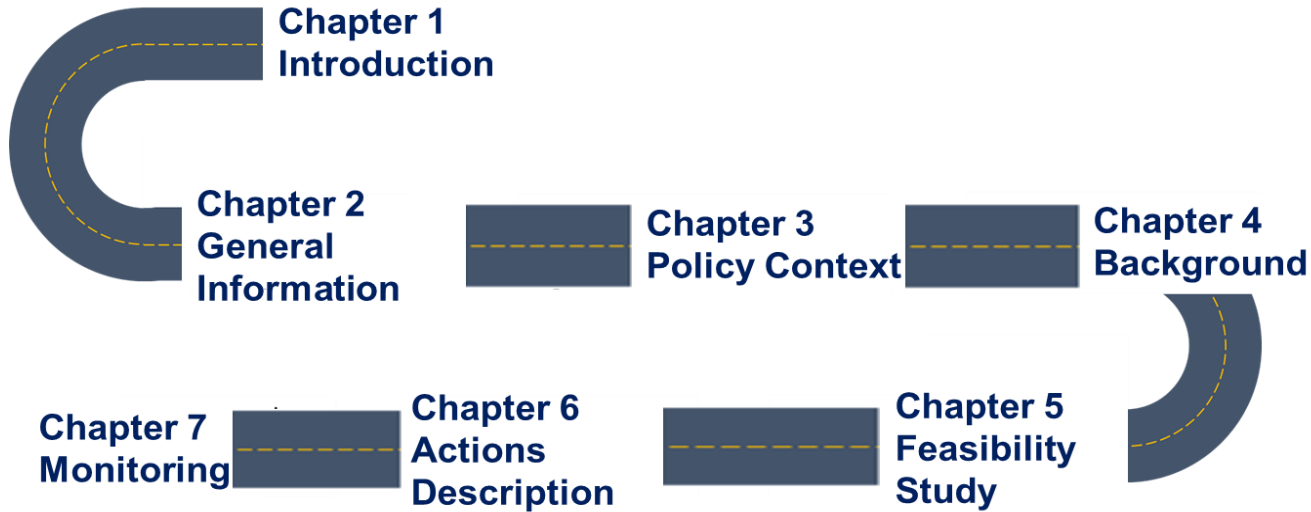

- Charging stations
- Strategic and Mobility Plans
- Raising awareness
- Public transport and niche fleets
-

➤ **Action Plans developed can be used as guide for other regions and policy makers**

➤ **The interregional learning process and project activities were a significant source of inspiration**
