

gr81. Changes of Greek drivers' attitude towards road safety

How often do you think each of the following factors are the cause of car drivers being involved in a road accidents?

	1996		2004		2011	
	rarely	often	rarely	often	rarely	often
Driving when tired	31,46%	67,93%	26,67%	73,23%	47,09%	52,91%
Drinking and driving	15,98%	83,54%	16,92%	82,79%	10,65%	89,35%
Taking drugs and driving			53,43%	43,38%	40,43%	59,57%
Make/answer a call with handheld phone			49,95%	49,05%	47,42%	52,58%
Bad weather conditions	36,46%	63,17%	32,34%	67,26%	35,27%	64,73%

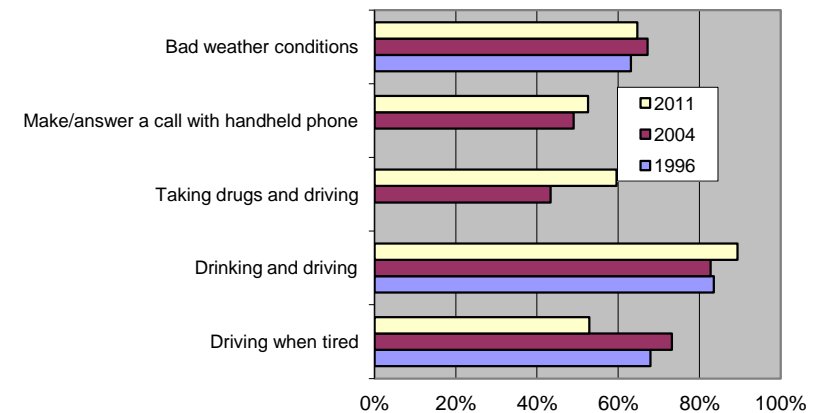

In general, how often do you think other car drivers break speed limits?

	10,61%	89,02%	18,71%	80,30%	15,14%	88,86%
--	--------	--------	--------	--------	--------	--------

In general, how often do you think that you break speed limits?

	82,99%	16,80%	84,68%	14,33%	81,20%	18,80%
--	--------	--------	--------	--------	--------	--------

How often do you think each of the following factors are the cause of car drivers being involved in a road accidents?

- An increase of perceived risk associated with bad weather and driver fatigue is observed between 1996 - 2011
- The perceived risk associated with drug use or mobile phone use has increased between 2004-2011
- Greek drivers self-reported speeding behaviour increased in 2011, despite the decrease between 1996-2004
