

All submissions should be made via email

to **Dr Angelos Amditis** and **Ms Nantia Skepetari**

of ICCS by the set deadlines.

Abstract submission: 17 February 2020

Notification: 3 March 2020

Final poster submission: 24 March 2020

Call for Posters

L3Pilot Summer School

“Developing and Testing Automated Driving”

13-14 May 2020, Athens, Greece

Poster submissions are now open for the L3Pilot Summer School!

We welcome the submission of short abstracts up to 800 words for posters on all research topics that are related to the theory and practice of Automated Driving (AD) implementation and testing. The submissions should include, but not be restricted to most recent developments, future directions or updates to established approaches regarding the following topics:

- Key Enablers of AD
- Handling Data for Automation
- Human Factors relevant to AD in Automotive Engineering
- Testing and Validation Framework

Abstracts submission:

All abstracts should include a title, a list of authors and a short description of the work to be presented. Abstracts should be sent to Ms Nantia Skepetari: nantia.skepetari@iccs.gr

Accepted abstracts will be published on the L3Pilot website.

Posters preparation:

All final posters must be in A0 portrait format.

The template that should be used for the preparation of all L3Pilot Summer School posters is available at: <https://l3pilot.eu/news/events/news/l3pilot-summer-school/>

Posters presentation:

Authors should print their posters at their own expenses and bring them directly to the Summer School venue.

Authors are expected to present their posters during the whole duration of the L3Pilot Summer School and especially during the breaks.

Participation at the L3Pilot Summer School is free but registration is mandatory.

The link to access the online registration system is:
