

[1. NTUA Road Safety Update](#)

This Road Safety Update aims to inform frequently the Greek Road Safety Community on some of the latest scientific developments in the field. It is based on all related material we often receive and on the latest NTUA research activities, which we think it might be of interest for you. Any contribution of related material to this Update is welcome.

[2. European Road Safety Observatory](#)

ERSO (the European Road Safety Observatory) aims to assist policy makers, researchers and road safety advisors in all aspects of road and vehicle safety policy development at European and national levels. The ERSO has been first developed as a pilot stage during the period 2004 - 2008 within the RTD project SafetyNet. Since then, the content of ERSO has been integrated into the "Europa" Commission Road Safety website. [LINK](#)

[3. Road Safety PIN Talk in Athens](#)

The Road Safety PIN Talk was organized by the [European Transport Safety Council](#) and the [Road Safety Institute Panos Mylonas](#) in Athens on November 15th, 2006. This Road Safety PIN Talk enters within the framework of the [Road Safety Performance Index](#) of the [European Transport Safety Council](#), having as objective to monitor and boost progress of road safety policies at national and EU level. NTUA presented 'The role of Performance Indicators in the implementation of Road Safety Programmes'. [LINK](#)

[4. Handbook of Road Safety Measures](#)

The Handbook of Road Safety Measures is the recently published final outcome of the [ROSEBUD](#) European research project dealing with Road Safety and Environmental Benefit-Cost and Cost-Effectiveness Analysis for Use in Decision-Making.
